Personnel	\$1,807,865

## NEIGHBOR TESTIMONIAL

"I eventually met with my Neighbor Advocate to complete an intake for the Veterans First Program and we met consistently afterwards in an effort to get me permanently housed. There were times I wanted to give up throughout my life because of medical problems, the death of my wife and son by a drunk driver and being homeless. However, knowing that I was almost close to becoming permanently housed brought me home. Becoming permanently housed has impacted my life, because I now have hope and do not feel less than. I feel like I am more stable and have a better chance at life. I am currently employed and receiving mental health and medical services." - **K. Day**
